

Alberta Wildfires 2006-2023

AVG # of Fires
1405

AVG Response time
01:33:28

AVG # of Fires (Last 5 years)
1091

AVG Response time (Last 5 years)
01:50:00

The number of fires per year has decreased.
The fires are getting bigger (Class D and E)

The most important causes of fire: Lightning, Recreation, Residence and Incendiary. (74% over the last 5 years)

The average response time (calculated here as the difference between the dispatch time and report time) is not getting any better.
More difficulties to dispatch to the biggest fires.
